REPORT • PAY • COMMUNICATE

## REDUCE RECIDIVISM, INCREASE REPORTING, & INCREASE PAYMENTS

ProbationComm, a new web program from Circle 7 Software, makes it easier for the probationer to fulfill his requirements.

**NO OTHER SOFTWARE ON THE MARKET PROVIDES AN INTERFACE FOR THE PROBATIONER!**

By providing a means for the Probationer to interface with the Probation Department and his Officer, ProbationComm enables the Department to realize several benefits:

- **Reduced Recidivism**

If used with all lower-level probationers, ProbationComm frees up time that an officer can spend with higher risk offenders, thus helping to reduce the recidivism rate. It also helps to reduce the number of **technical violations**, but allowing an easier means of reporting and paying. A study by **Sam Houston State University** suggests that caseloads can be as high as 500 without adding more work to the officers.

- **Increase Reporting**

Experts put the average of non-reporting offenders for 2005 at **10%-15%**. ProbationComm has been **proven to reduce this number to 5%**. More probationers are reporting, which means less phone calls to check up on them and fewer technical violations.

- **Increase Payments**

By making it easier and more convenient for the offender to make payments, more payments are made on-time. ProbationComm is a secure website that accepts online payments via credit cards and e-checks. Payments are routed to the counties bank account usually within 3 days.
