

**“PAPERLESS”
PARTNERS**

Going “paperless”?

We can help.

As Texas counties struggle to comply with the “paperless” mandate, we’re here to offer something new.

ProbationComm is an innovative web program designed to allow probation officers and administrators to communicate quickly and easily with their minimum security probationers.

This revolutionary new concept lets officers spend more time on high priority cases, while speeding up the report and payment process for their minimum security clients over a secure Internet connection.

NO OTHER PROGRAM DOES WHAT WE DO!

ProbationComm compliments your existing Probation Management application, or it can stand alone. Intended for minimum security probationers (Level 4 and approved Level 3), ProbationComm enables:

- Smarter, more effective communications through our integrated email and Instant Messenger systems,
- Better, faster, more convenient reporting through a web form,
- More payment options by enabling credit card and e-check payments online.

Let us help ease the burden of going “paperless”. Our user-friendly web screens are great for beginners and for techies. Call us today to arrange a demo and get started on the fast track to increasing efficiency *and* maintaining superior client contact.
